

Relationship Chart

Instructions:

1. Identify the most recent common ancestor of the two individuals with the unknown relationship.
2. Determine the common ancestor's relationship to each person (for example, grandparent or great-grandparent).
3. In the topmost row of the chart, find the common ancestor's relationship to cousin number one. In the far-left column, find the common ancestor's relationship to cousin number two.
4. Trace the row and column from step 3. The square where they meet shows the two individuals' relationship.
